(54) GOLF PUTTER HEAD HAVING FACE INSERT CAPABLE OF BEING CUSTOMIZED

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a putter head which can be customized to meet the requirements of individual golfers and assembled without spending time and money.

SOLUTION: The golf putter head has a face member (12) and a rear body (16). The face member (12) has a cavity(34) having a recessed base surface (36). The face member (12) has an opening (35) extending to the recessed base surface (36). The rear body (16) is attached to the rear surface of the face member (12) and has a coupling (50) shaped to be disposed in the cavity (34) of the face member (12) and a face insert (49) projecting therefrom and extending through the opening (35) of the face member (12).
